EDUCATION

APJ Abdul Kalam Technological University
BTech in Computer Science and Engineering

GPA: 8.7/10
Graduation Date: May 2023

WORK EXPERIENCE

TGH Technologies

Front End Developer

Ernakulam(Remote)

Oct 2022 - Dec 2022

- Worked on an industry-level web app project YE Stack using popular technologies including React, Redux, Tailwind. The platform has two type of users - Startups and Investors
- Platform allows startups to evaluate their current status and to connect with investors. Also investors could view the details of startups registered and connect if interested in funding.
- As a front end developer, I worked on the UI part (React and tailwind) and integrated the client side of the application using 'axios'.
- Improved my web development skills under the mentorship of industry professionals.
- Collaborated with 10+ developers in launching the project.

PROJECT EXPERIENCE

IET MBCET On Campus

Web Developer

Thiruvananthapuram

Nov 2021 - June 2022

- Developed a ReactJS website for unveiling and exhibiting events organized by the society.
- Collaborated with the UI team in designing the website.

IEEE MBCET SB

Technical Team Co Head

Thiruvananthapuram

Feb 2022 - Jan 2023

- As a part of web development competition, ELEVER 3, we developed a web app where the general public can create their own account and view the posts. The competition was organized by IEEE CS Kerala Section and our SB won the first position.
- Maintained and updated IEEE SB MBCET website

LEADERSHIP EXPERIENCE
